AUGUST 20, 1908

THE MA

The German magician, author, inventor and performer, who adorns our front page this month, is F. W. Conradi. At an early age Conradi had a natural love for magic, and was at that time engaged in a commercial business. Time advanced, and so did our subject's abilities. His inventions are truly marvellous and world famous. During our editor's stay in Berlin, in few weeks since, a command was received for Conradi's appearance at Potsdam, before H.R.H. the Emperor and royal suite.
